Summary

number	Created on	Summary
B34	29/03/2018	Full JPEG 2000 Support
B105	04/12/2019	Update Jpeg 2000 library to latest version

Detailed Release Notes

B34 - Full JPEG 2000 Support

This update adds the ability to Encode JPEG 2000 lossless and lossy.
Not all messages went into log stream.

B104 - Update Jpeg 2000 library to latest version

Update the Jpeg 2000 library to latest release of openjpeg 2.3.1.

B94 – DCXELM.putValue should fail if value was not inserted (non empty value)

Related to B90 above in some cases the value was not inserted to the element if conversion to the format failed or VR was not supported.
Now every insertion that does not pass returns error.

B95 - DCXREQ Documentation fix for C-GET

There was a missing parameter in the documentation of the method.
